**TO WHOM IT MAY CONCERN**

We were very pleased with our choice of KCL Contracting & engineering Ltd. in building our Kimberley/Beaches Public School additions and renovations, which was completed during February 2004.

KCL have demonstrated a high level of response and support throughout the project. The quality of work and management techniques was of high standards. We continue to invite KCL to bid on several other facility projects we currently have in process.

If you require any additional information, please do not hesitate to call.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Faris Mansur'.
