Re: Metropolitan Chestnut Park Hotel Renovations

To whom it may concern:

During the past year, KCL Contracting has performed drywall, demolition, steel, paint and millwork construction for the above project, much to the satisfaction of both the owner, construction manager and myself. I have worked closely with Larry and find him to be an honest, personable fellow whose company is both professional and competent.

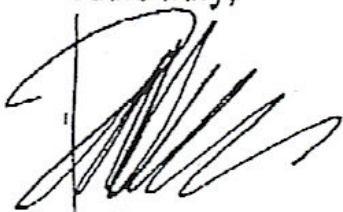

The total renovation cost for KCL's portion of the work was approximately \$750,000.

The some of the renovated areas include:

1. Main lobby ceiling and walls
2. P2 Level Ante Room and Ballroom ceilings and walls
3. P1 level offices.
4. Mezzanine Level bar and Restaurant.

Should you have any further questions please call me at ext. 217.

Yours truly,

Paul J. Waddell,
Associate
